What makes **arbataj**[®] drinks unique?

To create them, we use ripe and juicy fruits, berries, aromatic plants and herbs.

We combine flavors in a selected way, creating the refined and penetrating taste.

At the same time we are distinguished by an unprecedented way of preparing them.

arbataj[®] is the pure taste of nature

The ingredients we use to create the tea are all natural. Our drinks don't contain any dyes, flavors and other artificial preservatives.

Ripe fruits were collected in gardens. Plants and herbs grown in natural sunlight are handpicked on sunny and warm days.

You will feel nature and its mystery with your senses in the refreshing aromas of fruits and herbs.
